**AUTHOR entry headings are distinguished from subject entry headings by capitalization.**

A

ACKER, STEVEN A., JERRY F. FRANKLIN, SARAH E. GREENE, TED B. THOMAS, ROBERT VAN PELT, and KENNETH J. BIBLE. Two decades of stability and change in old-growth forest at Mount Rainier National Park. 65-72

Alaska
- dippers nesting on salmon streams, Obermeyer et al., 26-33
- GPS and aerial telemetry, Jozwiak et al., 239-245
- Norway rats on Kiska Island, Witmer et al., 191-198
- terrestrial invertebrates on alders and conifers, Schultz and De Santo, 120-132

algae
- methods for evaluating wood placement, Coe et al., 298-307

ANDELT, WILLIAM F. *see* Jozwiak et al., 239-245

anthropology
- three centuries of change at Rocky Point, Gedalof et al., 34-46

B

BAILEY, THEODORE N. *see* Jozwiak et al., 239-245

BALDWIN, CASEY M. *see* Polacek et al., 153-164

BARNES, JEREMY W.S. *see* Kirkpatrick et al., 1-8

BARRY, SETH. *see* Frank et al., 264-273

BATEMAN, HEATHER L. and MARGARET A. O'CONNELL. Effects of prescribed burns on wintering cavity-nesting birds. 283-291

BAXTER, REX D. *see* Haskell et al., 311-316

BERG, NATE D. *see* Murphy et al., 199-206

BIBLE, KENNETH J. *see* Acker et al., 65-72

biodiversity
- birds in vine maple gaps, Saunders et al., 165-176
- dippers nesting on salmon streams, Obermeyer et al., 26-33
- fire history in forest remnants, Meyn and Feller, 86-94
- methods for evaluating wood placement, Coe et al., 298-307
- mycophagy in oak woodlands, Frank et al., 264-273
- Olympic Peninsula plant species diversity, Tyler and Peterson, 224-238

birds
- birds in vine maple gaps, Saunders et al., 165-176
- bobolink reproductive strategies, Moskwik and O'Connell, 108-115
- burrowing owl status in Washington, Conway and Pardieck, 292-297
- cavity-nesting birds and prescribed burns, Bateman and O'Connell, 283-291
- dippers nesting on salmon streams, Obermeyer et al., 26-33
- granary selection by acorn woodpeckers, Johnson and Rosenberg, 177-183
- productivity of great blue herons, Stabins et al., 116-119

bivalves
- freshwater mussels in eastern Oregon, Brim Box et al., 95-107

blackberries
- blackberry and environmental conditions, Caplan and Yeakley, 9-17

bobolinks
- bobolink reproductive strategies, Moskwik and O'Connell, 108-115

botany
- blackberry and environmental conditions, Caplan and Yeakley, 9-17
- golden paintbrush habitat variation, Lawrence and Kaye, 140-152
- mistletoe in mature and old growth stands, Swanson et al., 207-217
- moss interference in *Mimulus* establishment, Kirkpatrick et al., 1-8
- old-growth forest at Mount Rainier, Acker et al., 65-72
- Olympic Peninsula plant species diversity, Tyler and Peterson, 224-238
- vegetative processes of two clonal shrubs, Nesmith et al., 274-282

BRIM BOX, JAYNE, JEANETTE HOWARD, DAVID WOLF, CHRISTINE O'BRIEN, DONNA NEZ and DAVID CLOSE. Freshwater mussels (Bivalvia: Unionoida) of the Umatilla and Middle Fork John Day rivers in eastern Oregon. 95-107

British Columbia
- birds in vine maple gaps, Saunders et al., 165-176
- fire history in forest remnants, Meyn and Feller, 86-94
- three centuries of change at Rocky Point, Gedalof et al., 34-46

bryophytes
- moss interference in *Mimulus* establishment, Kirkpatrick et al., 1-8

BURKE, PATRICK. *see* Witmer et al., 191-198

C

California
- socioeconomic change in planning provinces, Donoghue and Sutton, 73-85
- white-footed vole, Forsman and Swingle, 308-310

Canada
- birds in vine maple gaps, Saunders et al., 165-176
- fire history in forest remnants, Meyn and Feller, 86-94
- three centuries of change at Rocky Point, Gedalof et al., 34-46

CAPLAN, JOSHUA S. and J. ALAN YEAKLEY. *Rubus armeniacus* (Himalayan blackberry) occurrence and growth in relation to soil and light conditions in western Oregon. 9-17

carnivores
- Canada lynx in Yellowstone Park, Murphy et al., 199-206

climate
- bighorn sheep, diet selection, forage quality, Wagner and Peek, 246-258
- Columbia River shad and zooplankton, Haskell et al., 47-64
- fire history in forest remnants, Meyn and Feller, 86-94

CLOSE, DAVID. *see* Brim Box et al., 95-107

COE, HOLLY J., PETER M. KIFFNEY, and GEORGE R. PESS. A comparison of methods to evaluate the response of periphyton and invertebrates to wood placement in large Pacific coastal rivers. 298-307
conservation
burrowing owl status in Washington, Conway and Pardieck, 292-297
golden paintbrush habitat variation, Lawrence and Kaye, 140-152
methods for evaluating wood placement, Coe et al., 298-307
CONWAY, COURTNEY J. and KEITH L. PARDIECK. Population trajectory of burrowing owls (*Athene cunicularia*) in eastern Washington. 292-297
crustaceans
Siberian prawn range expansion, Haskell et al., 311-316

D
DAMIRAN, DAALKHAIJAV, TIMOTHY DELCURTO, DOUGLAS E. JOHNSON, SCOTT L. FINDHOLT, and BRUCE K. JOHNSON. Estimating shrub forage yield and utilization using a photographic technique. 259-263
dams
Columbia River shad and zooplankton, Haskell et al., 47-64
freshwater mussels in eastern Oregon, Brim Box et al., 95-107
migrations of largescale suckers, Schmetterling and McFee, 18-25
DE SANTO, TONI L. *see* Schultz and De Santo, 120-132
DELCURTO, TIMOTHY. *see* Damiran et al., 259-263
demographics
burrowing owl status in Washington, Conway and Pardieck, 292-297
freshwater mussels in eastern Oregon, Brim Box et al., 95-107
Lake Roosevelt burbot (*Lota lota*), Polacek et al., 153-164
productivity of great blue herons, Stabins et al., 116-119
DONOGHUE, ELLEN M. and N. LYNNAE SUTTON. Socioeconomic change in planning provinces of the Northwest Forest Plan region. 73-85
DUNLEVY, PETER. *see* Witmer et al., 191-198

E
economics
Olympic Peninsula plant species diversity, Tyler and Peterson, 224-238
socioeconomic change in planning provinces, Donoghue and Sutton, 73-85
endangered species
burrowing owl status in Washington, Conway and Pardieck, 292-297
entomology
terrestrial invertebrates on alders and conifers, Schultz and De Santo, 120-132
ethology
bighorn sheep, diet selection, forage quality, Wagner and Peek, 246-258
cavity-nesting birds and prescribed burns, Bateman and O'Connell, 283-291
granary selection by acorn woodpeckers, Johnson and Rosenberg, 177-183
rattlesnake hearing, Young and Harris, 218-223
white-footed vole, Forsman and Swingle, 308-310
exotics
blackberry and environmental conditions, Caplan and Yeakley, 9-17
Norway rats on Kiska Island, Witmer et al., 191-198
Olympic Peninsula plant species diversity, Tyler and Peterson, 224-238
Siberian prawn range expansion, Haskell et al., 311-316
three centuries of change at Rocky Point, Gedalof et al., 34-46

F
FELLER, M.C. *see* Meyn and Feller, 86-94
FINDHOLT, SCOTT L. *see* Damiran et al., 259-263
fish
Columbia River shad and zooplankton, Haskell et al., 47-64
dippers nesting on salmon streams, Obermeyer et al., 26-33
Lake Roosevelt burbot (*Lota lota*), Polacek et al., 153-164
migrations of largescale suckers, Schmetterling and McFee, 18-25
forest fires
cavity-nesting birds and prescribed burns, Bateman and O'Connell, 283-291
fire history in forest remnants, Meyn and Feller, 86-94
fire in Washington's national parks, Medler, 184-190
three centuries of change at Rocky Point, Gedalof et al., 34-46
forests
birds in vine maple gaps, Saunders et al., 165-176
cavity-nesting birds and prescribed burns, Bateman and O'Connell, 283-291
fire history in forest remnants, Meyn and Feller, 86-94
fire in Washington's national parks, Medler, 184-190
golden-mantled ground squirrel habitat associations, Shick et al., 133-139
granary selection by acorn woodpeckers, Johnson and Rosenberg, 177-183
mistletoe in mature and old growth stands, Swanson et al., 207-217
mycophagy in oak woodlands, Frank et al., 264-273
old-growth forest at Mount Rainier, Acker et al., 65-72
Olympic Peninsula plant species diversity, Tyler and Peterson, 224-238
socioeconomic change in planning provinces, Donoghue and Sutton, 73-85
terrestrial invertebrates on alders and conifers, Schultz and De Santo, 120-132
three centuries of change at Rocky Point, Gedalof et al., 34-46
white-footed vole, Forsman and Swingle, 308-310
FORSMAN, ERIC D. and JAMES K. SWINGLE. NWS Notes: White-footed voles living in arboreal nests. 308-310
FRANK, JONATHAN L., SETH BARRY, and DARLENE SOUTHWORTH. Mammal mycoghagy and dispersal of mycorrhizal inoculum in Oregon white oak woodlands. 264-273
FRANKLIN, JERRY F. *see* Acker et al., 65-72
FUCHS, MARILYN A. *see* Saunders et al., 165-176
fungi
mycophagy in oak woodlands, Frank et al., 264-273

G
GEDALOF, ZE'EV, MARLOW PELLATT, and DAN J. SMITH. From prairie to forest: Three centuries of environmental change at Rocky Point, Vancouver Island, B.C. 34-46
geochemistry
blackberry and environmental conditions, Caplan and Yeakley, 9-17

golden paintbrush habitat variation, Lawrence and Kaye, 140-152
geography
blackberry and environmental conditions, Caplan and Yeakley, 9-17
Canada lynx in Yellowstone Park, Murphy et al., 199-206
Lake Roosevelt burbot (*Lota lota*), Polacek et al., 153-164
migrations of largescale suckers, Schmetterling and McFee, 18-25
socioeconomic change in planning provinces, Donoghue and Sutton, 73-85
grasslands
estimating shrub forage yield, Damiran et al., 259-263
golden paintbrush habitat variation, Lawrence and Kaye, 140-152
raptors, burrowing owl status in Washington, Conway and Pardieck, 292-297
three centuries of change at Rocky Point, Gedalof et al., 34-46
GREENE, SARAH E. *see* Acker et al., 65-72
GUNTHER, KERRY A. *see* Murphy et al., 199-206
